Profile

Passionate and detail-oriented aspiring Front-End Developer with a strong foundation in HTML, CSS, and JavaScript, coupled with hands-on experience in building responsive and user-friendly websites. Eager to apply my skills in web development, UI/UX design, and modern front-end frameworks like React.js and Bootstrap to create visually appealing and highly functional web applications. A quick learner with a keen eye for design and a commitment to writing clean, efficient code. Seeking an opportunity to contribute to innovative projects and grow within a dynamic tech team.

Educational Qualification

S.E.C. R Higher secondary School

- Central Board of Secondary Education -10th 2016- 2017
- Central Board of Secondary Education -12th 2018- 2019

AMITY UNIVERSITY

- Bachelor of Technology (Mech) 2019-2023

Certification

BHILAI STEEL PLANT INTERNSHIP (BAR AND ROD MILL)

09-2022

EdYODA Digital University

2023-2024

- Communication
- Nodejs, Express, Mongo
- Web Fundamental –Front -End Development
- React JS

PROJECT INDUSTRIAL EXPERINCE

- **Backend E-commerce for Courses** - Developed a backend e-commerce website using Node.js. Utilized bcrypt for password hashing, Cloudinary for real-time image uploading, Node mailer for user registration notifications, Validator for input validation, and Mongoose for database management.
- **News Article Web App** - Created a frontend news article website using React.js. Leveraged React Redux for state management and integrated the News API for fetching and displaying articles.
- **FishMonger Web App** - created a FishMonger web application using the MERN stack (MongoDB, React, Node.js, and Express). The app features secure authentication with JWT (JSON Web Token) and password hashing using bcrypt, along with functionality to fetch products and add them to the cart.
- **Frontend E-commerce for Clothes** - Built a frontend e-commerce web app for clothing using Vite. Implemented React Router DOM for navigating multiple pages and components, enabling users to browse categories like men's, women's, and kids' clothing, add items to the cart, and complete the checkout process.

Professional Skill

- Html and CSS
- JavaScript
- MongoDB
- Node.js
- Reactjs
- MySQL
- DSA Basic
- Github

Soft Skill

- Creativity
- Conflict resolution
- Determination
- Communication Management
